Dear Mr. Bitsene,

Thank you for acknowledging receipt of my Privacy Act request (file P-2026-19181).

I would like to clarify the following points regarding your message:

1. My original request was submitted through the Government of Canada's official portal (the ATIP Online Request system), precisely because it is the secure, official channel designed for this type of request. My identifying information was registered in that portal, and I attached my Refugee Protection Claimant Document (the brown-paper document establishing my status as a refugee protection claimant in Canada), in its provisional form dated March 24, 2026, and its final form dated April 8, 2026.
2. Regarding photo identification: my Mexican passport was retained by CBSA during my processing at the port of entry (YUL, March 20, 2026) and, to date, has not been returned to me. Likewise, my eTA was cancelled on March 23, 2026. For this reason, I do not currently have physical possession of a valid passport that I could attach.
3. For the same reason noted in the closing paragraph of your own email — that email and fax transmissions are not secure unless they are encrypted and password protected — I do not consider it appropriate to send additional personal documentation through this channel. That is precisely why the request was filed through the official portal in the first place. Accordingly, I respectfully request that any further communication, document request, or response regarding my file be conducted through the same ATIP portal through which the request was initiated. I can securely upload any supplementary document your office may require through that system.

To assist in locating my file, I reiterate my identifying information:

- Legal name: Victor Manuel Gutierrez Verduzco
- Date of birth: September 28, 1985
- UCI: 11-5347-7808
- CBSA ATIP file: P-2026-19181
- Refugee Protection Claimant Document issued April 8, 2026 (already attached in the portal)

I look forward to your reply through the official channel.

Sincerely,
