Para: vieprivee@admtl.com

Dear Privacy Officer,

Thank you for your reply of May 5, 2026.

I wish to clarify and narrow my request, which I believe fully resolves the concern raised in your decision:

1. I am not, at this time, asking ADM to disclose or release the footage to me. Accordingly, no review, masking, blurring or any other alteration is necessary, and the third-party / "disproportionate effort" considerations under s.9(1) PIPEDA do not arise.
2. I request that ADM place and maintain a preservation hold on the original recordings (video and audio) of myself for March 20-22, 2026, for the areas under ADM's own jurisdiction and control, kept complete, intact and unaltered - no overwriting, editing, blurring or deletion.
3. On jurisdiction: the recordings from areas controlled by the Canada Border Services Agency (CBSA) are being addressed directly with the CBSA, which will respond through its own process in due course. This request to ADM therefore concerns only the recordings of the areas under ADM's control.
4. This is required because the recordings are relevant to ongoing and anticipated legal proceedings. The material would be produced only if and when formally requested by the competent authority (a court or law enforcement), in its original, unaltered form.
5. I would be grateful if you could confirm in writing that this preservation hold is in place and the date through which the material will be retained.

Sincerely,  
Victor Manuel Gutierrez Verduzco
